WORK FOR BETTER BABES

Dr. Linde of New Haven Presents Paper Before County Medical Society—Treats on Subject of Infant Welfare—Dr. Klein of State Hospital is Also Essayist Before Society Meeting.

At the 15th semi-annual meeting of the New London County Medical society, which was held at the Wauregan house on Thursday, with morning and afternoon sessions, a paper that was of particular interest both to the medical men and to the general public was presented by Dr. Joseph J. Linde of New York, who spoke upon the topic, "The Present Status of Infant Welfare Work." Dr. Linde's paper came at the afternoon session, which followed dinner, where covers were laid for 25.

At the morning session, beginning at 11 o'clock, Dr. Anthony Peck, president, was in the chair and in the business done was the election of these officers: President, Dr. Joseph J. Linde of New York; Vice President, Dr. Rush W. Kimball of Litchfield county; Dr. Patrick J. Cassidy of Middlesex county; Dr. Geo. H. Jennings of New Haven county; Dr. Edward J. Brophy of Tolland county; Dr. Leona L. LaPierre of Windham county; Dr. Arnold F. Lapierre.

Infant Welfare.

Dr. Linde's paper which was discussed by Dr. Cassidy, was as follows:

The cry of "save the babies" has repeatedly come to your ears. It is the watchword of all those interested in prophylactic medicine and those who are interested in our world, for it is a well known statistical fact that great numbers of babies die unnecessarily. It has been said that a baby who comes into the world has less chance to live one week than an old man of 70 and less chance to live a year than one of 80, and mortality records have shown that one fifth of all deaths were children under one year of age.

Dreadful Mortality Unnecessary.

This dreadful mortality has resulted in a united effort by many varied agencies to save the child. It is possible to reduce this unnecessary mortality. I say unnecessary, because statistics have determined the cause of these deaths, and have shown them to be so, most of them being due to the so-called diarrhoeal.
